The Green Mountain Adventure Challenge begins with a story that leads to a set of clues - maybe an old letter or a grainy map - which lead to more clues, the end of the story and possibly... cash. Lots of cash.

Solve the clues right the first time and you'll spend no more than 2 days exploring ancient forests, climbing mountain summits, solving mysterious codes and enjoying spectacular Vermont scenery.

The clues are hidden in everyday places around town; on a hiking trail, at a bar, on a bridge or with the local townfolk, perhaps. The answers to some may be obvious while others may leave you stumped and wandering for hours - or days.

You and your team will succeed (or fall apart?) in pursuit of glory and riches while raising money for the fight against cancer.

But perhaps the best part of all is the satisfaction you'll feel at having solved a series of mind-bending puzzles to discover a secret world hidden in plain sight.
